## DETAILED ACTION

1. Applicant's preliminary Amendment dated 7/28/03 has been received in application serial number 10/627,718. Claims 1-20 have been canceled.

### ***Double Patenting***

2. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

3. A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

4. Claims **25-26** are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims **22 and 23** of prior U.S. Patent No. **6,214,045**. This is a double patenting rejection.

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double

patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claim 27 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims **22-24** of U.S. Patent No.

**6,214,045**. Although the conflicting claims are not identical, they are not patentably distinct from each other because patent '045 claims therapeutic or diagnostic substances and it is obvious to one having ordinary skill in the art that "stem cells and cellular precursors" are therapeutic agents that would attribute to the healing process of the implant in the surrounding tissue.

7. Claims 21-24 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 9-16 of U.S. Patent No.

6,214,045 Corbitt, Jr. et al. in view of Naficy 4,298,998. Patent '045 discloses the invention as claimed however patent '045 does not specify the use of a resorbable collagen. Naficy teaches that resorbable collagen is utilized in the outer core of a breast prosthesis (see col. 3, lines 55-64). It would have been obvious to one having ordinary skill in the art at the time the invention was made to take the invention of pat. '045 and incorporate the resorbable collagen taught by patent '998 because the collagen material has a high biocompatibility properties and can be easily absorbed by dissolution, phagocytosis or other methods.
